INDEPENDENT AUDITOR'S REPORT

To the Tribal Executive Committee
Minnesota Chippewa Tribe
Cass Lake, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Minnesota Chippewa Tribe, Cass Lake, Minnesota, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Tribe's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Tribe's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Tribe's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information for the primary government of the Minnesota Chippewa Tribe as of September 30, 2020, and the respective changes in financial position and where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted a management's discussion and analysis and budgetary comparison schedules that U.S. generally accepted accounting principles requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Tribe's basic financial statements. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 18, 2025, on our consideration of the Tribe's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Tribe's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Tribe's internal control over financial reporting and compliance.

NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The various bands of Chippewa Indians residing within the Fond du Lac, Grand Portage, Bois Forte (Nett Lake), Leech Lake, Mille Lacs and White Earth Reservations comprise the Minnesota Chippewa Tribe (the "Tribe"). The Tribe is a federally recognized Indian Tribe whose constitution was formally adopted by its members on January 24, 1936.

The Tribe provides general government, public health and welfare, public safety, education, public works, culture and recreation, economic development and social and health services for the benefit of the members.

A. Reporting Entity

In evaluating how to define the government for financial reporting purposes, management evaluated the involved entities based on a number of criteria. It was determined that the Tribe is a primary government based upon the fact that it is legally separate, its governing body is separately elected, and it is fiscally independent of other governments.

Potential component units of Tribe are evaluated on various criteria, the main one being the degree of accountability the primary government has over the potential component units. The most significant factor in the accountability assessment is the potential component unit's financial accountability to the primary government, measured through the degree to which the primary government can appoint a voting majority of the governing body, impose its will, ascertain a potential financial benefit, or face a potential financial burden with regard to the potential component unit.

Potential component units of the Tribe include the Minnesota Chippewa Tribe Finance Corporation. Based upon an evaluation of the potential component units using the criteria detailed above, the following conclusions were reached.

The Minnesota Chippewa Tribe Finance Corporation should be included in the reporting entity of the Tribe. This is based on the fact that it is financially accountable to the primary government, and the Executive Committee appoints all board members of the Finance Corporation. This component unit is blended within the financial statements of the Tribe. Separately issued financial statements may be obtained by contacting the Finance Corporation office.

B. Tribe-Wide Financial Statements

The goal of Tribe-wide financial statements is to present a broad overview of Tribe's finances. The basic statements that form the Tribe-wide financial statements are the statement of net position and the statement of activities. These two statements report information on all of the non-fiduciary activities of the Tribe. The effect of interfund activity has been removed from these statements, except those between government-type activities and business-type activities. Governmental activities, which are normally financed through intergovernmental revenues, are reported separately from business-type activities, which are normally financed through user fees and charges for goods or services.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

The statement of activities reports gross direct expenses by function reduced by program revenues. This results in a measurement of net revenue or expense for each of the Tribe's activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues are directly associated with the function or business-type activity and include 1) charges for services and 2) operating or capital grants and contributions that are restricted to a particular function.

C. Fund Financial Statements

The fund financial statements provide information about the Tribe's funds. Separate statements for each fund category – governmental and proprietary– are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

The Tribe reports the following major governmental funds:

General Fund – This fund is the general operating fund of the Tribe. All financial resources of the general government that are not required to be reported in another fund are accounted for in the general fund.

Department of Interior Fund – This fund is used to account for the revenues and expenditures relating to federal awards received from the Department of Interior.

Department of Health and Human Services Fund – This fund is used to account for the revenues and expenditures relating to federal awards received from the Department of Health and Human Services.

The Tribe reports the following major proprietary fund:

Finance Corporation – This fund accounts for low interest loans to Native Americans for the purchase, construction or rehabilitation of housing.

Additionally, the Tribe reports the following fund type:

Internal Service Funds – These funds account for the following activities provided to other departments of the Tribe on a cost-reimbursement basis: indirect costs, insurance, computer/copier services, revolving funds, and office supplies.

D. Basis of Accounting

The Tribe-wide, proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Tribe considers revenues to be available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Intergovernmental revenue, permits, charges for services and investment income associated with the current fiscal period are the major revenues that are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent they are collected in one year. All other revenue items are considered to be measurable and available only when the Tribe receives cash.

Amounts reported as program revenues include the following: amounts received from those who purchase, use or directly benefit from a program; amounts received from parties outside the Tribe that are restricted to one or more specific programs; and earnings on investments that are legally restricted for a specific program.

Proprietary funds report operating revenues and expenses separately from nonoperating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Tribe's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Tribe considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Tribe considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Council has provided otherwise in its commitment or assignment actions.

E. Other Significant Accounting Policies

Cash and Cash Equivalents

The Tribe considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investments

Investments are recorded at fair market value in accordance with Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*. Unrealized gains and losses due to fluctuations in fair value are included in non-operating revenue. Gains and losses on the sale of securities are recorded on the trade date in nonoperating revenue and are determined using the specific identification method.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

Receivable and Credit Policy

Trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice date. The receivables are non-interest bearing. Payments on trade receivables are applied to the earliest unpaid invoices. The carrying amount of trade receivables is reduced by a valuation allowance that reflects management's best estimate of the amounts that will not be collected. At September 30, 2020, the allowance for doubtful accounts was \$0 in the governmental and business-type activities.

Grants Receivable

Grants receivable consists of amounts due for reimbursement of approved expenditures on grants entered into with various government agencies. Receivables of this nature are considered fully collectible.

Prepaid Items

Certain cash payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements.

Interfund Transactions

During the course of operations, transactions occurred between individual funds for goods provided and services rendered. These receivables and payables are properly classified as "due from other funds" or "due to other funds" in the fund financial statements and are eliminated in the government-wide statement of net position, except those between government-type activities and business-type activities. Repayment terms for interfund balances have not been established. Quasi-external transactions are accounted for as revenues and expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the fund that is reimbursed.

Loans

Loans are reported at their outstanding unpaid principal balance net of the allowance for loan losses.

Interest income on loans is accrued at the specific rate on the unpaid principal balance. The accrual of interest on loans is discontinued at the time the loan is 90 to 120 days delinquent unless the credit is well secured and in the process of collection. All current year interest accrued but not collected for loans that are charged off is reversed against interest income. All prior year interest accrued but not collected is charged off against the allowance for loan losses.

The Finance Corporation has determined that the accounting for nonrefundable fees and costs associated with originating loans does not have a material effect on the financial statements. As such, these fees and costs have been recognized during the period they are collected and incurred, respectively.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against allowance when management believes the uncollectibility of a loan is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated by management and is based upon management's review of the collectability of the loans in light of historical experience, nature and volume of loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available.

Capital Assets

Capital assets are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are not capitalized. Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	20 years
Machinery and equipment	3-5 years

Unearned Revenue

The government reports advances from grants on its balance sheet. Advances from grants arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Advances from grants also arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurring of the qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and the revenue is recognized.

Compensated Absences

Unused vacation and personal leave are accrued at year-end for each employee as established under the personnel policies of the Minnesota Chippewa Tribe. The amount of vacation and personal leave that can be accrued is unlimited and may be carried over from year-to-year. Upon termination, an employee will be paid for both unused vacation and personal leave, up to 240 hours.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

Escrowed Liabilities

Escrowed liabilities consist of amounts collected from borrowers for the payment of taxes and insurances.

Revolving Fund

Under terms of the agreement between the Finance Corporation and the Minnesota Housing Finance Agency, an initial contribution was made and revolving funds are provided from interest earned on loans and investments and rental income.

Indirect Costs

Indirect costs represent recoverable overhead costs charged by the Tribe to federal, state, and tribal programs in connection with administering and accounting for programs funded by federal, state and tribal resources. The latest indirect cost rate approved by the cognizant federal agency (Department of Interior, Office of Inspector General) was 21.1% for all programs. Certain programs were limited to lesser amounts as prescribed in the grant/contract award and a number of programs were not funded for the full amount of indirect costs based on the approved rate. These overhead costs have been reflected in the accompanying financial statements as expenditures of the governmental funds and as revenue to reimburse the expenditures of the indirect cost fund.

Federal and State Income Taxes

The Tribe, as a federally recognized Sovereign Government, is exempt from Federal and State income taxes. As such, no income taxes have been provided for in the accompanying financial statements.

Real Estate Acquired by Foreclosure

The inventory of real estate obtained through foreclosure or deed transfer in lieu of foreclosure is recorded at the outstanding mortgage principal remaining less any unused escrow remaining when title to the real estate is obtained. Additional expenses such as property insurance, foreclosure expense and building repairs are expensed during the year as incurred.

The Finance Corporation adjusts the inventory of real estate to market value when the facts indicate that the market value of the foreclosed real estate is less than the originally recorded carrying value.

Subsequent sales of foreclosed real estate that are financed by the Finance Corporation are accounted for using the Deposit Method whereby the down payment received plus subsequent principal and interest payments are accumulated in a deposit liability account, unless the down payment is greater than or equal to five percent of the sale price. Once the balance of payments received is greater than or equal to five percent of the sales price of the real estate, full sale treatment of the repossessed property can be recognized.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the balance sheet and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. A material estimate that is particularly susceptible to significant change in the near-term relates to the determination of the allowance for loan losses.

Fund Balance

The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – amounts that are not in nonspendable form (such as prepaid items) or are required to be maintained intact.

Restricted Fund Balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed Fund Balance – amounts constrained to specific purposes by the Tribe itself, using its highest level of decision-making authority (i.e., Tribal Council). To be reported as committed, amounts cannot be used for any other purpose unless the Tribe takes the same highest level action to remove or change the constraint.

Assigned Fund Balance – amounts the Tribe intends to use for a specific purpose. Intent can be expressed by the Tribal Council or by an official or body to which the Tribal Council delegates the authority.

Unassigned Fund Balance – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The Tribe does not have a formal fund balance policy as of September 30, 2020.

Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for acquisition, construction, or improvements of those assets and adding back any unspent proceeds.

When both restricted and unrestricted resources are available for us, it is the Tribe's policy to use restricted resources first then unrestricted resources as they are needed.

When committed, assigned or unassigned resources are available for use, it is the Tribe's policy to use resources in the following order; 1) committed, 2) assigned, 3) unassigned.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

NOTE 2 - DEPOSITS AND INVESTMENTS

Deposits

In accordance with the Tribe's investment policy, the Tribe maintains deposits at those depository banks authorized by the Board. All such depositories are members of the Federal Reserve System.

Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Tribe will not be able to recover the value of its collateral securities that are in the possession of an outside party. In accordance with Tribal investment policy, the Tribe maintains deposits at those depository banks authorized by the tribal council, all of which are members of the Federal Reserve System. As of September 30, 2020, the Tribe's deposits were adequately insured or properly collateralized by pledged securities.

Investments

The Tribe and Finance Corporation maintain separate investment policies. The Tribe may invest funds as authorized by the board as follows:

1. United States Government and Agency Securities (US Treasury bills, notes and bonds);
2. Government money market funds;
3. Collateralized certificates of deposit; and
4. Corporate bonds rated "A" or better

The Finance Corporation may invest funds as authorized by the Board as follows:

1. United States Treasury notes and bills issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States.
2. Debentures issued by any federal government agency or instrumentality, including but not limited to the federal national mortgage association, federal home loan bank, farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal securities shall be direct issuances of federal government agencies and instrumentalities.
3. Money market funds and certificates of deposits in federal institutions.

Custodial Credit Risk

The custodial credit risk for investments is the risk that in an event of failure of the counterparty, the Tribe will not be able to recover the value of the investment of the collateral securities in the possession of the outside party. The Tribe has no custodial risk for investments for September 30, 2020. The Tribe does not have a formal policy that limits custodial credit.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of the investment. The Tribe does not have a formal policy that limits investments maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

The Tribe manages exposure to fair value of loss arising from changing interest rates by having fixed income investments with varying maturity dates.

The Minnesota Chippewa Tribe's investments as of September 30, 2020, consist of the following:

Investment Type	Fair Value	Maturities in Years	
		Less than 1	1 to 5
Governmental activities			
US Government sponsored Issues	\$ 80,958	\$ -	\$ 80,958
Marketable fixed income bonds	240,436	-	240,436
Total governmental activities	321,394	-	321,394
Business-type activities			
Certificate of deposit	13,141,293	2,641,932	10,499,361
Municipal bonds	6,067,578	394,086	5,673,492
Total business-type	19,208,871	3,036,018	16,172,853
Total investments	\$ 19,530,265	\$ 3,036,018	\$ 16,494,247

The Tribe carries its investments at market value and adjusts for the change in market values through current earnings. Money market mutual funds are unrated as of September 30, 2020.

The Tribe categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Tribe has fair value measurements of \$13,462,687 valued using quoted market prices (Level 1 inputs) and \$6,067,578 valued using other observable inputs (level 2) as of September 30, 2020.

Concentration Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of investments in a single issuer. The Tribe places no limits on the amount which may be invested with a single issuer. There are no investments in anyone issuer that is in excess of 5% of total investments.

Under certain circumstances the Finance Corporation may make adjustments to fair value for assets and liabilities although they are not measured at fair value on an ongoing basis. The Finance Corporation only had Level 3 financial assets measured at fair value on a nonrecurring basis at September 30, 2020, which is summarized below:

Assets Recorded at Fair Value on a Nonrecurring Basis:

Real estate acquired by foreclosure	<u>\$ 1,238,655</u>
-------------------------------------	---------------------

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

Real Estate Acquired by Foreclosure – Real estate acquired by foreclosure, upon initial recognition, is measured and reported at fair value through a charge-off to the allowance for possible losses on foreclosed properties based upon the fair value of the real estate acquired by foreclosure. The fair value of real estate acquired by foreclosure is estimated based on assumptions, such as comparable sales of assets, not observable in the marketplace. The significant unobservable inputs used in valuing real estate acquired by foreclosure was to discount the collateral valuation from the appraised value by an additional 10% to cover potential liquidation costs.

NOTE 3 - MORTGAGE LOANS, BUSINESS LOANS, AND INSTALLMENT LOANS RECEIVABLE

Mortgage Loans Receivable

As of September 30, 2020, the Finance Corporation had 413 outstanding mortgage loans. Loans are to be repaid in thirty (30) years or less, except for renovation loans, which are to be repaid in fifteen (15) years or less. Housing loans are secured by liens on the property to the extent such liens may validly be granted, and in accordance with standard mortgage procedures appropriate to the nature of the ownership of the land. Housing loans for dwellings on Tribal or Band land are made only if such land is leased (which lease shall be approved by the Tribe or Band) under terms insuring the availability of the land for a period equal to the term of the housing loan and 20 years thereafter. The Bureau of Indian Affairs must approve housing loans for dwellings on allotted lands in writing.

Under terms of the agreement with MHFA, the Finance Corporation must use these funds in a manner approved by MHFA and must revolve repaid principal.

The mortgage loans receivable consisted of the following at September 30, 2020:

Mortgage loans receivable	\$20,090,614
Duluth renovating loan receivable	74,494
Mortgage receivable - FHA	12,655,545
Rental development loans	6,131,193
Revolving loan fund	(14,121,145)
Allowance for loan losses	<u>(265,946)</u>
Total loans, net of allowance	24,564,755
Less current portion of loan receivable	<u>(2,421,700)</u>
Total loans, net of current portion and allowance	<u><u>\$22,143,055</u></u>

Business Loans Receivable

On May 11, 2005, the Finance Corporation was awarded a grant from the Community Development Financial Institution for \$949,783 for the purpose of making business loans.

As of September 30, 2020, the Finance Corporation had 9 outstanding business loans. These loans are secured by equipment and real estate.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

The business loan receivable consisted of the following as of September 30, 2020:

Business loans receivable	\$ 262,969
Allowance for loan losses	<u>(20,001)</u>
Total loans, net of allowance	242,968
Less current portion of loan receivable	<u>(57,073)</u>
Total loans, net of current portion and allowance	<u><u>\$ 185,895</u></u>

Installment Loans Receivable

As of September 30, 2020, the Finance Corporation had outstanding installment loans with a total receivable balance of \$1,062,042. The loans are to be repaid in five years or less with a balloon payment in the final year. The installment loans are for repossessed properties that have been sold to the borrower on a contract for deed.

NOTE 4 - ADVANCES FROM MHFA

Minnesota Housing Finance Agency

The Finance Corporation, through a 1976 agreement with the Minnesota Housing Finance Agency, is administering housing assistance funds for Native Americans. The funds advanced are not required to be repaid to the Minnesota Housing Finance Agency as long as the Housing Corporation follows the guidelines enacted in the agreement. Funds appropriated by the Minnesota Housing Finance Agency to the Minnesota Chippewa Tribal Housing Corporation are as follows:

Fiscal Year	American Indian Housing Funds	Duluth Urban Indian Housing Funds
1977-1996	\$25,490,677	\$ -
1997	1,048,509	-
1998	1,048,509	-
1999	1,048,509	-
2000	1,048,509	-
2001	1,048,509	-
2002	1,134,342	-
2003	1,134,342	-
2004	744,770	-
2005	744,770	-
Plus re-allocation funds from off-reservation Chippewa	172,252	-
Equity participation loan	<u>14,648</u>	<u>-</u>
Total MHFA funds appropriated	<u><u>\$34,678,346</u></u>	<u><u>\$ -</u></u>

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

NOTE 5 - LEASING ACTIVITIES

The Finance Corporation rents 8 single family real estate properties to individuals on a month-to-month basis. Real estate property under operating leases was valued at \$724,222 at September 30, 2020, and is included in Real Estate Acquired by Foreclosure at the lower rate of cost or market value. Total rental income received on leased real estate property was \$75,101 for the year ended September 30, 2020.

NOTE 6 - CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2020 is as follows:

	Balance 10/1/2019	Additions	Deletions	Balance 9/30/2020

	<u>\$ 103,949</u>	<u>\$ 476,026</u>	<u>\$ -</u>	<u>\$ 579,975</u>	<u>\$ 135,635</u>

The compensated absences are paid out of the admin pool internal service fund.

Notes Payable

The details and balance of the notes payable as of December 30, 2020 are as follows:

Note payable to Western Bank	
Payroll Protection Program loan	<u>\$ 444,340</u>

The above Payroll Protection Program loan was subsequently forgiven in the year ended September 30, 2021.

NOTE 9 - SHORT-TERM NOTE PAYABLE

The Tribe has a revolving line of credit where they may borrow up to \$100,000, at 30-day LIBOR rate plus 2.75 percent (2.898% as of September 30, 2020). There was no outstanding balance on this line as of September 30, 2020. The line of credit is due on demand and renews automatically.

NOTE 10 - RETIREMENT PLAN

As of an effective date of February 1, 1997, the Tribe adopted a 401(k) Profit Sharing Plan and Trust for all employees who have attained the age of 18. The Tribe contributes 5% of each covered employee's gross annual wages to the plan. The employee can make additional contributions, not to exceed \$18,000 per year, with certain stipulations. Plan participants are immediately vested 100% in all employer contributions. Contributions made by the Tribe were \$93,575 for the fiscal year ended September 30, 2020.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

NOTE 11 - DEFICIT FUND BALANCE

The following funds were in a deficit position as of September 30, 2020:

Governmental Funds	
Major Fund	
Department of Health and Human Services	\$ (1,508)
Nonmajor Fund	
Wild Rice Fund	(81,068)
Wisdom Steps	(107)
Economic Development	(7,754)
Internal Service Funds	
Office Space	(211,733)
Administrative Pool	(6,818)
Revolving Fund	(460,087)

Management intends to restore the deficit fund balances. The funds will be restored through general fund transfers or additional funding for applicable programs.

NOTE 12 - CONCENTRATION OF CREDIT

The Finance Corporation receives a majority of its funding from the State of Minnesota. The Finance Corporation lends money only to Native Americans for the purchase, construction, or rehabilitation of housing within the State of Minnesota.

Also, substantially all of the Finance Corporation's loan portfolio is comprised of thirty-year, fixed-rate loans, secured by mortgages on one-to-four family residential real estate.

NOTE 13 - DENTAL SELF INSURANCE

The Tribe is self-insured with respect to dental insurance costs. The terms of the plan do not include a stop-loss provision which would limit the Tribe's liability. The following is the activity for the year ended September 30, 2020:

Claims incurred	\$ 12,541
Claims paid	12,541

NOTE 14 - OFF-BALANCE SHEET ACTIVITIES

The Minnesota Chippewa Tribe Finance Corporation is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments consist primarily of commitments to extend credit. These financial instruments involve varying degrees, elements of credit, interest rate, liquidity, and market risk in excess of amounts recognized in the statement of net position.

The Minnesota Chippewa Tribe Finance Corporation's exposure to credit loss is represented by the contractual amount of these commitments. The Minnesota Chippewa Tribe Finance Corporation follows the same credit policies in making commitments as it does for on-balance sheet instruments.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

At September 30, 2020, the following financial instrument was outstanding whose contract amount represent credit risk:

Financial instrument whose contract amount represents credit risk
Unused construction lines of credit (A/P building account) \$ 136,870

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since a portion of the commitment may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Minnesota Chippewa Tribe Finance Corporation evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Minnesota Chippewa Tribe Finance Corporation, upon extension of the credit is based on the loan type and management's credit evaluation of the borrower. Collateral consists primarily of real estate.

The Minnesota Chippewa Tribe Finance Corporation's exposure to credit risk in the event of nonperformance by the other party to the financial instrument for commitments to extend credit is represented by the contract amount of those instruments.

Management does not anticipate any material losses as a result of these financing commitments.

NOTE 15 - NEW PRONOUNCEMENTS

GASB Statement No. 84, *Fiduciary Activities*, provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement also addresses arrangements—often characterized as leases—that are associated with conduit debt obligations. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. Earlier application is encouraged.

GASB Statement No. 92, *Omnibus 2020*, provides additional guidance to improve consistency of authoritative literature by addressing practice issues identified during the application of certain GASB statements. This statement provides accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activity of public entity risk pools, fair value measurements and derivative instruments. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides guidance to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR), most notable, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. This statement provides exceptions and clarifications regarding hedging derivative instruments for such transactions that result from the replacement of IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The statement provides definitions of PPPs and APAs and provides uniform guidance on accounting and financial reporting for transactions that meet those definitions. A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. An APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

GASB Statement No. 96, *Subscription-Based Information Arrangements* provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. Under this Statement, a government generally should recognize a right-to use subscription asset—an intangible asset—and a corresponding subscription liability. The requirements of this Statement will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* provides additional guidance for determining whether a primary government is financially accountable for a potential component unit. This Statement requires that the financial burden criterion in paragraph 7 of Statement No. 84, *Fiduciary Activities*, be applicable to only defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement No. 67, *Financial Reporting for Pension Plans*, or paragraph 3 of Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, respectively. This Statement (1) requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and (2) clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, are effective immediately. The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021.

GASB Statement No. 99, *Omnibus 2022*, provides guidance on the following accounting matters:

- Classification and reporting of derivative instruments within the scope of Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument.
- Clarification of provisions in Statement No. 87, *Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives.
- Clarification of provisions in Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, related to (a) the determination of the public-private and public-public partnership (PPP) term and (b) recognition and measurement of installment payments and the transfer of the underlying PPP asset.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

- Clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability.
- Extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt.
- Accounting for the distribution of benefits as part of the Supplemental Nutrition Assistance Program (SNAP).
- Disclosures related to nonmonetary transactions.
- Pledges of future revenues when resources are not received by the pledging government.
- Clarification of provisions in Statement No. 34, *Basic Financial Statements— and Management's Discussion and Analysis—for State and Local Governments*, as amended, related to the focus of the government-wide financial statement.
- Terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*.
- Terminology used in Statement 53 to refer to resource flows statements.

The requirements of this statement are effective as follows:

- The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance.
- The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.
- The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter.

GASB Statement No. 100, *Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62*, provides guidance on accounting and financial reporting requirements for accounting changes and error corrections. Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. The requirements of this Statement for changes in accounting principles apply to the implementation of a new pronouncement in absence of specific transition provisions in the new pronouncement. This Statement also requires that the aggregate amount of adjustments to and restatements of beginning net position, fund balance, or fund net position, as applicable, be displayed by reporting unit in the financial statements.

This Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections, such as their nature. In addition, information about the quantitative effects on beginning balances of each accounting change and error correction should be disclosed by reporting unit in a tabular format to reconcile beginning

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2020

balances as previously reported to beginning balances as restated. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 101, *Compensated Absences*, provides guidance on the recognition and measurement guidance for compensated absences. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This Statement also requires that a liability for specific types of compensated absences not be recognized until the leave is used. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. A liability for leave that has been used but not yet paid or settled should be measured at the amount of the cash payment or noncash settlement to be made. Certain salary-related payments that are directly and incrementally associated with payments for leave also should be included in the measurement of the liabilities. This Statement amends the existing requirement to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (as long as they identify it as a net change). In addition, governments are no longer required to disclose which governmental funds typically have been used to liquidate the liability for compensated absences. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

GASB Statement No. 102, *Certain Risk Disclosures*, requires entities to disclose critical information about their exposure to risks due to certain concentrations or limitations that could lead to financial distress or operational challenges. This statement is effective for fiscal years beginning after June 15, 2024.

GASB Statement No. 103, *Financial Reporting Model Improvements*, revises the requirements for management's discussion and analysis with the goal of making it more readable and understandable, requires unusual or infrequent items to be presented separately, defines operating and nonoperating revenues, includes a new section for noncapital subsidies for proprietary funds' statement of revenues, expenses and changes in net position, removes the option to disclose major component information in the notes and requires them to be shown individually or in combine financial statements following the fund financial statements and requires budgetary comparisons to be presented as RSI with new columns for variances between original-to-final budget and final budget-to-actual results. This statement is effective for fiscal years beginning after June 15, 2025.

GASB Statement No. 104, *Disclosure of Certain Capital Assets*, established requirements for certain types of capital assets to be disclosed separately in the capital assets note. These items include disclosing separately lease assets, intangible right-to-use assets, subscription assets and intangible assets. In addition, additional disclosures will be required for capital assets held for sale. This statement is effective for fiscal years beginning after June 15, 2025. Earlier application is encouraged.

Management has not yet determined what effect these statements will have on the Tribe's financial statements.

MINNESOTA CHIPPEWA TRIBE
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported in the schedule are reported on the modified accrual basis of accounting, except for subrecipient expenditures. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 2. INDIRECT COST RATE

The Tribe has not elected to use the 10% de minimis cost rate. The Minnesota Chippewa Tribe uses their negotiated indirect cost rate of 21.1%.

NOTE 3. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Minnesota Chippewa Tribe under programs of the federal government for the year ended September 30, 2020. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents on a selected portion of the operations of the Minnesota Chippewa Tribe, it is not intended to and does not present the financial positions, changes in net position or fund balance of the Minnesota Chippewa Tribe.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Tribal Executive Committee
Minnesota Chippewa Tribe
Cass Lake, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Minnesota Chippewa Tribe, Cass Lake, Minnesota, (the Tribe) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Tribe's basic financial statements and have issued our report thereon dated August 18, 2025.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Tribe's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Tribe's internal control. Accordingly, we do not express an opinion on the effectiveness of the Tribe's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2020-001, 2020-002, 2020-003, 2020-004, 2020-005, 2020-006, and 2020-007 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Tribe's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2020-004.

Tribe's Response to Findings

The Tribe's responses to the findings identified in our audit are described in the schedule of findings and questioned costs. The Tribe's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Tribal Executive Committee
Minnesota Chippewa Tribe
Cass Lake, Minnesota

Report on Compliance for Each Major Federal Program

We have audited Minnesota Chippewa Tribe's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Minnesota Chippewa Tribe's major federal programs for the year ended September 30, 2020. Minnesota Chippewa Tribe's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on the compliance for each of Minnesota Chippewa Tribe's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Minnesota Chippewa Tribe's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of Minnesota Chippewa Tribe's compliance.

Basis for Qualified Opinion on Aging Cluster

As described in the accompanying schedule of findings and questioned costs, the Minnesota Chippewa Tribe did not comply with the requirements regarding CFDA's 93.044 and 93.045 Aging Cluster as described in finding number 2020-009 for subrecipient monitoring. Compliance with such requirements is necessary, in our opinion, for the Minnesota Chippewa Tribe to comply with the requirements applicable to this program.

Qualified Opinion on Aging Cluster

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the Minnesota Chippewa Tribe complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Aging Cluster, CFDA's 93.044 and 93.045, for the year ended September 30, 2020.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the Tribe complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended September 30, 2020.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2020-008. Our opinion on each major federal program is not modified with respect to this matter.

The Tribe's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The Tribe's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the Minnesota Chippewa Tribe is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Minnesota Chippewa Tribe's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Minnesota Chippewa Tribe's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses and significant deficiencies and therefore, material weaknesses and significant deficiencies may exist that have not been identified. We identified certain deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2020-008 and 2020-009 that we consider to be material weaknesses.

Tribes' Responses to Findings

The Tribes' responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The Tribes' responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Tribal Self-Governance	93.558	Unmodified
Dollar Threshold used to Distinguish Between Type A and Type B Programs?	<u> \$750,000 </u>	
Auditee Qualified as Low-Risk Auditee?	Yes <u> </u>	No <u> X </u>

MINNESOTA CHIPPEWA TRIBE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED
FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-001 Material Journal Entries
Material Weakness

Condition

During the course of our engagement, we proposed material audit adjustments that would not have been identified as a result of the Tribe's existing internal controls, and therefore could have resulted in a material misstatement of the Tribe's financial statements.

Criteria

A good system of internal accounting control contemplates an adequate system for recording and processing entries material to the financial statements.

Cause

The Tribe does not have an internal control system designed to identify all necessary adjustments.

Effect

This control deficiency could result in a misstatement to the financial statements that would not be prevented or detected.

Recommendation

A thorough review and reconciliation of accounts in each fund should take place prior to the beginning of the audit. This review should be done at both the accounting staff and accounting supervisor levels.

Management's Response

The Tribe is developing a fiscal year-end review process and checklist that will be implemented at the end of the fiscal year September 30, 2021 to ensure that future audit adjustments will be minimal.

Repeat Finding

This is a repeat finding of 2019-001.

MINNESOTA CHIPPEWA TRIBE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED
FOR THE YEAR ENDED SEPTEMBER 30, 2020

**2020-002 Preparation of Financial Statements and Schedule of Expenditures of
Federal Awards
Material Weakness**

Condition

The Tribe does not have an internal control system designed to provide for the preparation of the financial statements and Schedule of Expenditures of Federal Awards being audited. The auditors were requested to draft the Tribe's financial statements and accompanying notes to the financial statements and Schedule of Expenditures of Federal Awards.

Criteria

A good system of internal accounting control contemplates an adequate system for the ability to internally prepare their financial statements and Schedule of Expenditures of Federal Awards.

Cause

Tribal personnel do not have adequate training to apply accounting principles generally accepted in the United States of America internally.

Effect

The financial disclosures in the financial statements and Schedule of Expenditures of Federal Awards could be incomplete.

Recommendation

This circumstance is not unusual in a Tribe of your size. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Management's Response

Due to cost constraints, the Tribe will continue to have the auditors draft the financial statements and Schedule of Expenditures of Federal Awards and accompanying notes to the financial statements.

Repeat Finding

This is a repeat finding of 2019-002.

MINNESOTA CHIPPEWA TRIBE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED
FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-003 Segregation of Duties
Material Weakness

Condition

The Tribe has a lack of segregation of duties in certain areas due to a limited staff.

Criteria

A good system of internal control contemplates an adequate segregation of duties so that no one individual has incompatible responsibilities. No one person should have more than one duty relating to the authorization (approval), custody of assets (check depositing), record keeping and reconciliation functions.

Cause

There are a limited number of finance employees.

Effect

Inadequate segregation of duties could adversely affect the Tribe's ability to detect misstatements in amounts that would be material in relation to the financial statements in a timely period by employees in the normal course of performing their assigned functions.

Recommendation

While we recognize that your staff may not be large enough to permit complete segregation of duties in all respects for an effective system of internal control, the functions should be reviewed to determine if additional segregation of duties is feasible and to improve efficiency and effectiveness of financial management and financial statement accuracy for the Tribe. Segregation of authorization, custody of assets, record keeping, and reconciliation functions would assist in mitigating the risk of fraud or misstatements to the financial statements.

Management's Response

Due to cost constraints, there will be no further administrative employees added. The Tribe will continue to look for further opportunities to segregate duties.

Repeat Finding

This is a repeat finding of 2019-003.

MINNESOTA CHIPPEWA TRIBE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED
FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-004 Reporting
Material Weakness and Material Noncompliance

Condition

The September 30, 2020, audited financial statements were not filed with the Federal Audit Clearinghouse by the required due date.

Criteria

Requirements contained in Uniform Guidance require audited financial statements to be filed with the Federal Audit Clearinghouse within nine months of the Tribe's year end, as required for compliance with reporting requirements.

Cause

The Tribe's financial statements were not available to be audited until after the nine month deadline had passed.

Effect

Non-compliance with Uniform Guidance reporting requirements.

Recommendation

We recommend that the Tribe implement and communicate a timeline within the finance department to ensure that the Tribe financial information and files are prepared, reconciled, and audited timely. This will allow for timely submission of its audited financial statements to the Federal Audit Clearinghouse within the nine-month deadline as required by Uniform Guidance.

Repeat Finding

This is a repeat finding of 2019-004.

MINNESOTA CHIPPEWA TRIBE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED
FOR THE YEAR ENDED SEPTEMBER 30, 2020

**2020-005 Improper Control Procedures around ATM Processes and Petty Cash
Material Weakness**

Condition

The Tribe does not have the proper controls to ensure all ATM and petty cash is accounted for.

Criteria

A good system of internal control contemplates an adequate segregation of duties so that no one individual has incompatible responsibilities. No one person should have more than one duty relating to the authorization (approval), custody of cash (filling the ATM), record keeping and reconciliation functions.

Cause

Lack of training and limited number of finance employees.

Effect

Inadequate segregation of duties could adversely affect the Tribe's ability to detect misstatements in amounts that would be material in relation to the financial statements in a timely period by employees in the normal course of performing their assigned functions.

Recommendation

While we recognize that your staff may not be able to permit complete segregation of duties in all respects for an effective system of internal control, the functions should be reviewed and improved surrounding the ATM and petty cash to determine if additional segregation of duties is feasible and to improve efficiency and effectiveness of financial management and financial statement accuracy for the Tribe. Segregation of authorization, custody of cash, record keeping and reconciliation functions would assist in mitigating the risk of fraud or misstatements to the financial statements.

Management's Response

The Tribe will continue to look for further opportunities to segregate duties surrounding ATM and petty cash procedures.

Repeat Finding

This is a repeat finding of 2019-005.

MINNESOTA CHIPPEWA TRIBE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - CONTINUED
FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-006 Improper Use of Tribal Credit Cards and Lack of Supporting Documentation
Material Weakness

Condition

During the course of our engagement, we noted Tribal issued credit cards were being used to purchase personal items for Tribal employees and repaying through payroll deductions. There was also a lack of documentation supporting credit card expenditures.

Criteria

A good system of internal accounting control contemplates an adequate system for keeping Tribal purchases separate from personal purchases, as well as supporting documentation that should be retained.

Cause

Employees with Tribal credit cards are purchasing personal items with Tribal Funds, then repaying the Tribe through payroll deductions.

Effect

This deficiency could result in tribal funds not being repaid and ultimately used for personal purchases.

Recommendation

We recommend that employees do not use Tribal credit cards for personal purchases and supporting documentation for all purchases should be retained.

Management's Response

The Tribe will continue to review their policies in this area.

Repeat Finding

This is a repeat finding of 2019-006.

MINNESOTA CHIPPEWA TRIBE

2020-007 Lack of Proper Review of Tribal Credit Card Expenditures
Material Weakness

Condition

During the course of our engagement, we discovered that there was a lack of review of Tribal credit card expenditures.

Criteria

A good system of internal accounting control contemplates an adequate system designed to review all types of expenditures.

Cause

The Tribe does not have an internal control system designed to review all expenditures.

Effect

This deficiency could result in a misstatement to the financial statements that would not be prevented or detected.

Recommendation

We recommend that credit card purchases are reviewed and approved.

Management's Response

The Tribe will continue to review their policies in this area.

Repeat Finding

This is a repeat finding of 2019-007.

Section III – Federal Award Findings and Questioned Costs

2020-008 Reporting
Material Weakness in Internal Control over Compliance and Immaterial
Instance of Noncompliance

Federal Agency: U.S. Department of Health and Human Services
CFDA Number: 93.594
Program Name: Tribal Work Grants

Criteria

A good system of internal accounting control contemplates an adequate system for ensuring that all reports are completed and submitted accurately.

Condition

During the course of our engagement, we noted that the controls surrounding the reporting function of these programs were not being properly segregated. There was no review being performed to ensure that all required reports were submitted accurately. We also noted two SF-425 reports were not submitted prior to the deadline.

Cause

The Tribe does not have an internal control system designed to ensure all reports are submitted timely and are reviewed by an individual separate from the person preparing the reports.

Effect

The control deficiency could result in the Tribe's reports within these programs not being completed accurately or filed on time.

Questioned Costs

None reported.

Context

There were four (4) quarterly reports required to be filed during the year. All four (4) of these were tested and were found to have segregation of duties issues. In addition, two (2) of these were found to have been submitted after the deadline.

Recommendation

Management should put procedures in place to ensure that all reports are reviewed and documented as well as filed timely.

Repeat Finding

This is a repeat finding of 2019-008.

Management's Response

The Tribe will work on procedures to ensure that all reports are reviewed by an individual separate from the person preparing the report and filed timely.

2020-009 Subrecipient Monitoring
Material Weakness in Internal Control over Compliance and Material
Instance of Noncompliance

Federal Agency: U.S. Department of Health and Human Services
CFDA Number: 93.044; 93.045; 93.053
Program Name: Aging Cluster

Criteria

The Aging Cluster compliance supplement requires monitoring to be performed on all subrecipients. The Tribe did not perform monitoring on subrecipients including: review of subrecipient program; review of subrecipient expenditures incurred; or review of subrecipient audited financial statements.

Condition

The Tribe did not properly perform subrecipient monitoring.

Cause

The Tribe does not have sufficient procedures in place to ensure proper subrecipient monitoring is being conducted.

Effect

The Tribe was not in compliance with subrecipient compliance requirements.

Questioned Costs

Undeterminable.

Context

During our testing of the program, it was noted the Tribe had not performed any subrecipient monitoring over the course of the fiscal year.

Recommendation

Management should implement procedures and policies regarding the monitoring of subrecipient activities.

Repeat Finding

This is a repeat finding of 2019-009.

Management's Response

The Tribe will work on developing and implementing procedures and policies regarding the monitoring of subrecipient activities.

Contact Person

Luke Warnsholz, Executive Director

Planned Corrective Action

The Tribe will develop and implement a timeline to comply with federal requirements to file audited financial statements with the Federal Audit Clearinghouse in a timely manner.

Planned Completion Date

The timeframe to be in compliance with audit filings is an ongoing effort.

Luke Warnsholz, Executive Director

Planned Corrective Action

A further review of ATM and petty cash internal controls will be completed to determine if current segregation of duties can be improved upon to increase efficiency and effectiveness of financial management for these functions.

Planned Completion Date

There will be a review of these functions during fiscal year 2025, and internal control processes will be updated.

Planned Corrective Action

The Tribe will review current tribal credit card procedures and implement policies that will ensure that purchases are made strictly for the benefit of the Tribe, while also ensuring that full, accurate documentation is kept of expenditures.

Planned Completion Date

There will be a review of these functions during fiscal year 2025, and internal control processes will be updated.

Contact Person

Luke Warnsholz, Executive Director

Planned Corrective Action

The Tribe will review current internal controls regarding the preparation and submittal of financial reports to the U.S. Department of Health and Human Services for the Tribal Work Grants. However, the financial worker at the Tribe that prepares and submits the reports currently receives e-mail notifications from the DHHS, that each report has been reviewed and approved by the DHHS. If a better system of internal accounting control includes a separate financial worker at the Tribe preparing the report, and another financial worker submitting the report via online, this action will be implemented.

Planned Completion Date

The Tribe will set up proper segregation of financial reporting duties during fiscal year 2025, for the Tribal Work Grants. This will include separating the duties of the person preparing the financial reports, and the person submitting the reports online.

Luke Warnsholz, Executive Director

Planned Corrective Action

Due to cost constraints, there is a lack of adequate human services staff to perform monitoring of subrecipients. However, the Tribe will review subrecipient policies to determine what procedures can be implemented regarding the monitoring of subrecipient activities.

The Minnesota Chippewa Tribe

CORRECTIVE ACTION PLAN - CONTINUED

Planned Completion Date

Beginning in fiscal year 2025, the Tribe will work on developing and implementing policies and procedures regarding the monitoring of subrecipient activities.
